AUTHORS INDEX — Vol. 23

Aldenrath, S.G., 109
Alli, I., 47, 156
Amiot, J., 183

Baker, K.W., 145
Barber, K., 121
Barbut, S., 149
Barefoot, R.R., 140
Beveridge, T., 233
Borsa, J., 114
Bourne, M.C., 72
Brouillette, M., 203

Chambers, J.R., 226
Champagne, C.P., 203
Chen, B.-K., 131
Cliff, M., 217
Coffin, R.H., 145
Cole, L., 114
Cusson, M., 66

Day, N.B., 59
Deng, Q.Y., 140
Dever, M., 217
Dilts, B.D., 82
Diosady, L.L., 131, 140
Doyon, G., 165

Eikelenboom, G., 160

Farber, J.M., 26
Fedio, W.M., 236

Gardiner, M.A., 143
Gariépy, C., 183
Ghazala, S., 125
Girard, F., 203
Greer, G.G., 82

Hardin, R.T., 94
Harrison, J.E., 233
Harwalkar, V.R.. 226
Hawrysh, Z.J., 94
Holloway, P., 212
Hood, L.F., 72
Hoppner, K., 223

Irving, T.C., 79

Jackson, H., 236
Johnson, C.P., 87
Jones, S.D.M., 82

Kauffman, R.G., 160

Lachance, B., 198
Lachance, M-A., 212
Lachance, O., 101
Lacroix, C., 101
Lampi, B., 223
LeBlanc, D.I. 207
Leszkowiat, M.J., 145
Lin, C., 94

Ma, C.-Y., 226
McCannel, A.A., 42
McKellar, R.C., 29
McMullen, L.M., 94
Meheriuk, M., 233
Millman, B.M., 79
Modler, H.W., 29
Mohler Smith, A., 53
Mohr, W.P., 193
Muller, S.A., 22
Murray, A.C., 87
Musakhanian, J., 47

Yaguchi, M., 29

Zee, J.A., 66

SUBJECT INDEX — Vol. 23

Acids
  organic acids, Phaseolus, 47
  protein extraction
Alfalfa
  Klebsiella pneumoniae
  occurence, 189
Amino acids
  cheddar cheese, flavour,
  essential amino acids, 53
  seal meat,137
  yogurt, 203
Anisakis
  survival, cold smoke,
  fresh, salmon, 143
Apple Juice
  varietal characterization,
  sensory, 217

Beans
  Phaseolus, organic acids,
  protein extraction, 47
Beef
  spray chill, Bacteriology, case
  life, quality, vacuum
  packaging, 82
  weightloss, frozen, ground,
  refrigerated, 76
Bifidobacteria/Bifidogenic factors
  review, 29
Biotin
  yogurt
Blueberries
  modified atmosphere,
  microbiology, 59
Bologna
  chopping time, 149

Canola
  antioxidant, oil, thermal
  stability, 94
  lysinoalanine, meal/isolates, 140
  glucosinolates, meal,
  ultrafiltration, 131
Chromatography
  ion-exchange, egg yolk,
  immunoglobulins, 42
  reverse phase, cheese, HPLC 53
Connective Tissue
  turkey, muscle fibre, 239
Controled Atmosphere Storage
  pear juice, nonenzymatic
  browning, 233

Egg
  gamma irradiation, functional
  properties, internal and
  sensory quality, 226
  yolk, immunoglobulins,
  ion-exchange, chromatography,
  isolation, 42

Fish
  nutritional quality,
  composition, 66
  salmon, Anisakis,
  Diphyllobothrium, cold smoke,
  fresh, 143
  salmon, canned, nutrition, 121
Folate
  yogurt, 223
Fruits
  apple juice, varietal
  characterization, 217
  blueberries, modified
  atmosphere, 59
  pear, juice, concentrate,
  controlled atmosphere storage,
  nonenzymatic browning, 233
  tomato, fruit anatomy
  product consistency, solids
  composition, 193

Honey
  textural analysis, crystallized,
  response surface
  methodology, 178

Immunoglobulins
  egg yolk, ion-exchange
  chromatography, isolation, 42
Irradiation
  gamma, *Clostridrium*
  sporogenes, heat sensitivity,
  spores, 114
  gamma, egg, functional
  properties, internal and sensory
  quality, 226

Kinetics
  vitamins, thermal destruction,
  thiamine, 125
Klebsiella pneumoniae
  occurrence, alfalfa, mung bean
  sprouts, 189

Lactobacillus delbrueckii
  milk, amino acid content,
  peptide content,
  yogurt, 203

Listeria monocytogenes
  raw milk, raw/cooked meats,
  raw/cooked vegetables, 109
Lysinoalanine
  extraction, canola, 140

Meat
  bologna, chopping time,
  scanning, 149
  electrical stimulation,
  longissimus muscle, quality,
  sensory evaluation, 183
  low temperature home cooker,
  comparison conventional
  cooking, energy, 207
  pork, evaluation, Agriculture
  Canada quality standards, 87
  seal, chemical composition,
  colour, 137
  veal, pectoralis major muscle,
  reflectance (colour), 198
  x-ray, diffraction, myofilament
  spacing, 79
Membranes
  ultrafiltration, canola,
  glucosinolates, 131
Microbiology
  Bifidobacteria/Bifidogenic
  factors, review, 29
  blueberries, modified
  atmosphere, 59
  Clostridium sporogenes,
  gamma irradiation, 114
  Listeria monocytogenes, meats,
  milk, vegetables, 109
  pathogens, foodborne,
  parasites, 26
  salmon, Anisakis,
  Diphyllobothrium, cold smoke,
  fresh, 143
  yogurt, humectants, water
  activity, 101
Microscopy
  light, protein crystals,
  Phaseolus, 47
  scanning electron,
  bologna, 149
  transmission electron,
  amyloplast membrane,
  potato, 145
Microwave
  applications, food
  processing, 17
Milk
  Listeria monocytogenes
  occurrence, 109

peptide content, amino acid content, *Lactobacillus delbrueckii, Streptococus salivarius*, yogurt, 203

Minerals
salmon, canned, 121
Modified atmosphere
blueberries, microbiology, 59
Multivarate analysis
cheese, discriminant, principal component, 53
Mung Bean Sprouts
Klebsiella pneumoniae occurrence, 203
Muscle Fibers
pork, x-ray, diffraction, myofilament spacing, 79
turkey, connective tissue, 239

Nutrition
canned, salmon, 121
fish, seafood, 66

Pear
juice, concentrate, controlled atomosphere storage, nonenzymatic browning, 233
Packaging
meat quality,22
Pantothenic Acid
yogurt products, 223
Pork
evaluation, Agriculture Canada quality standards, 87
x-ray diffraction, myofilament spacing, 79
Potato
amyloplast membrane, low temperature, transmission electron microscope, 145
Processing
seal meat, chemical composition, colour, 137
Poultry
turkey, muscle fibre, connective tissue, 239

Rapeseed
antioxidant, oil, thermal stability, 94
lysinoalanine, meal/isolates, 140
glucosinolates, meal, ultrafiltration, 131
Riesling
yeasts, grapes, must, 212

Salmon
Anisakis, Diphyllobothrium, cold smoke, fresh, 143
canned, nutrition, 121
Seal
meat, chemical composition, colour, 137
Sensory
apple juice, varietal characterization, 217
canola, antioxidant, thermal stability, 94
cheese, classification, discriminant analysis, HPLC, principal component analysis, 53
eggs, functional properties, gamma irradiation, physicochemical properties, 226
pork, Agriculture Canada quality standards, evaluation, 87
meat, electrical stimulation, quality, 183
Streptococcus salivarius
milk, amino acid content, peptide, yogurt, 203

Texture
honey, response surface methodology
Thermal
vitamins, destruction, kinetics, 125
canola oil, antioxidant, stability, 94
Thiamine
thermal degradation, kinetics, 125
Tomato
solids composition, fruit anatomy, product consistency, 193
Turkey
muscle fibre, connective tissue, 239

Veal
pectoralis major muscle, post-mortem, reflectance (colour), 198
Vegetables
alfalfa, *Klebsiella pneumoniae* occurrence, 189
Listeria monocytogenes occurrence, raw cooked, 109
mung bean, *Klebsiella pneumoniae* occurrence, 203
potato, amyloplast membrane, low temperature storage, 145
Vitamins
salmon, canned, 121
thiamine, kinetics, thermal destruction, 125
yogurt, biotin, folate, pantothenic, 223

Water Activity
yogurt, humectants, microbiology, 101

X-ray
diffraction, myofilament spacing, pork, 79

Yeast
yogurt, humectants, 101
Riesling Must, 212
Yogurt Products
biotin content, folate, pantothenic acid, 223
humectants, microbiology, 101
Lactobacillus delbrueckii, Streptococcus salivarius, 203
